

III. Remarks

This is a response to the final action mailed in this application on December 30, 2004. The Examiner's careful attention and suggestions are appreciated. Reexamination, reconsideration and allowance is requested.

All suggestions of the Examiner set out in the objections to claims 2-5, 22-24 and 26-27, and in a telephone conversation with the Examiner on February 24, 2005, have been adopted in the amendment herein. The spelling of "pyrolysis" conforms to the spelling used in the Specification. In response to the rejection of claims 2-4 and 6-27, independent claims 3 and 4, on which claims, 2-4 and 6-27, depend, are amended to include the proper *Markush* terminology suggested by the Examiner. Claim 5 is likewise amended.

Under 37 CFR 1.116, because all claims are amended to include proper *Markush* terminology and the spelling of "pyrolysis" is corrected, applicant submits that the objection and rejection are overcome. Applicant accordingly requests that the amendment be entered and that this application and claims 2-27 be allowed and passed to issue.

Respectfully submitted,

Date: February 28, 2005
